This fine old whisky was made in the Spring of '81 in Kentucky. It was stored for three years, then exported and stored abroad. It was reimported and finally set out here around the Horn. That's the whisky which even the W. C. T. U. wants.

Order of Celebration of the Treaty of Peace.

Ratification or no ratification of the treaty of peace by China, the Japanese in Honolulu will to-day celebrate the victories of their country which led to the arrangement of peace. There will be detached processions of mimic army and navy to the Consulate, and four thence a grand procession of both joined by the people to Independence Park. This will start about 9 o'clock. It is useless to describe the procession before it is seen, but there is no doubt it will be well worth seeing. It would be advisable for those who would take everything in, to see the gathering of the claus at the Consulate, where a triumphal arch has been erected and where a national salute will be fired. Above all the grand procession must not be missed by anybody, with its miniature cruiser and the glittering gear of the warriors. In addition to what has been told already in these columns, and what has been noted herein, nothing remains prior to the events of the day but to give the programme as below:

THE MONEY QUESTION.

Hoke Smith, Secretary of the Interior, thinks that in the next twelve months a thorough discussion of the money question will be presented all over the country. The discussion will be limited to the proposition for the unlimited coinage of silver at a ratio of 16 to 1. The Secretary thought the agitation of the question was checking the return of prosperity, but he hoped that the plan of the silvermen would be defeated without doing the country serious injury. In conclusion, Secretary Smith said: "I have no doubt that the next President of the United States will be opposed to the unlimited coinage of silver at 16 to 1."

A fearful cyclone in the vicinity of Halstead Kansas, on May 1 devastated a strip of country several hundred yards wide and sixteen miles long. Homes were destroyed and six persons were killed outright.
